# HOORVIA - FILE NAMING CONVENTIONS: PRINTABLE GUIDE

Quick Reference Cheat Sheet · US Letter Printable

**Reference Charts · Sheet #1**

| File Type | Pattern | Example | Rule |
|---|---|---|---|
| **Project files** | kebab-case | my-project-report.pdf | Lowercase, hyphens only |
| **Photos** | YYYY-MM-DD-description | 2026-11-06-beach-sunset.jpg | Date first, sorts chronologically |
| **Invoices** | INV-YYYY-NNNN | INV-2026-0042.pdf | Sequential numbers |
| **Contracts** | CLIENT-PROJECT-vN | acme-website-v2.docx | Version at the end |
| **Spreadsheets** | project-data-YYYY-MM | sales-data-2026-11.xlsx | Month in the name |
| **Code files** | snake_case | user_profile.py | Language convention |
| **Design files** | project-screen-vN | homepage-hero-v3.fig | Version at the end |
| **Backups** | file-YYYY-MM-DD-bak | database-2026-11-06-bak.sql | Date + bak suffix |
| **Receipts** | vendor-YYYY-MM-DD-amount | amazon-2026-11-05-49-99.pdf | Amount for quick search |
| **Meeting notes** | YYYY-MM-DD-topic | 2026-11-06-kickoff.md | Date first |
| **Log files** | app-YYYY-MM-DD.log | app-2026-11-06.log | One file per day |
| **Final deliverables** | project-FINAL-vN | report-FINAL-v2.pdf | FINAL only when truly final |

**PRO TIP:** Date first, always: Starting a filename with YYYY-MM-DD makes it sort chronologically in every file manager. Dates in the middle or at the end sort randomly.
