HOORVIA - CSS TEXT STYLES: PRINTABLE PROPERTY GUIDE

Quick Reference Cheat Sheet · A4 Printable

Tech & Software · Sheet #1

Property	What It Does	Example	Common Values
font-family	Sets the typeface	font-family: Arial, sans-serif;	serif, sans-serif, monospace
font-size	Sets the text size	font-size: 16px;	px, rem, em, %
font-weight	Sets the boldness	font-weight: 700;	400 normal, 700 bold
font-style	Italic or normal	font-style: italic;	normal, italic, oblique
line-height	Sets the line spacing	line-height: 1.5;	1.2-1.6 for body text
letter-spacing	Sets the space between letters	letter-spacing: 0.05em;	em values
text-align	Aligns the text	text-align: center;	left, right, center, justify
text-decoration	Underlines, strikes	text-decoration: underline;	none, underline, line-through
text-transform	Changes the case	text-transform: uppercase;	uppercase, lowercase, capitalize
color	Sets the text color	color: #0F172A;	hex, rgb, named colors
text-shadow	Adds a shadow	text-shadow: 2px 2px 4px gray;	offset, blur, color
white-space	Controls wrapping	white-space: nowrap;	normal, nowrap, pre

PRO TIP: Use rem for font sizes: Pixels do not scale with the user's browser settings; rem does. Set the root size once and use rem everywhere so text stays accessible.
