HOORVIA - PORK INTERNAL TEMPERATURE CHART (LEAN CUTS VS BBQ COLLAGEN CUTS)

Quick Reference Cheat Sheet · US Letter Printable

Kitchen & Cooking

Boneless Pork Loin Chops (1" thick)			
Pull From Heat At	**Final Rested Temp**	**Rest Time**	**Visual Cue & Juiciness Note**
140°F-142°F / 60°C	145°F / 63°C (USDA)	3-4 min	Faint blush pink center; firm yet juicy

Bone-In Rib / Center-Cut Chops			
Pull From Heat At	**Final Rested Temp**	**Rest Time**	**Visual Cue & Juiciness Note**
141°F-143°F / 61°C	145°F-147°F / 63°C	4-5 min	Bone insulates meat; probe away from bone

Whole Pork Tenderloin (1-1.25 lb)			
Pull From Heat At	**Final Rested Temp**	**Rest Time**	**Visual Cue & Juiciness Note**
140°F / 60°C	145°F / 63°C	5 min	Very lean muscle; dries rapidly past 150°F / 66°C

Boneless Pork Top Loin Roast (2-4 lb)			
Pull From Heat At	**Final Rested Temp**	**Rest Time**	**Visual Cue & Juiciness Note**
138°F-140°F / 59°C	145°F / 63°C	10-12 min	Large roast has 5°F-7°F / -15°C--14°C carryover climb

Bone-In Crown Roast of Pork			
Pull From Heat At	**Final Rested Temp**	**Rest Time**	**Visual Cue & Juiciness Note**
138°F / 59°C	145°F / 63°C	15 min	Shield rib tips with foil to prevent charring

Thick-Cut Pork Steak (Sirloin)			
Pull From Heat At	**Final Rested Temp**	**Rest Time**	**Visual Cue & Juiciness Note**
145°F-150°F / 63°C	150°F-155°F / 66°C	5 min	Slightly more marbling than center loin

PRO TIP: No other meat confuses home cooks more than pork, because pork cuts come from two completely opposite muscle groups that require a 58°F difference in finishing temperature:
