Max time between breaks (guide)	**Typical breaks per day**	**Key times to go out**
About 6 hours (max, daytime)	4-6	Morning, midday, evening, before bed

PRO TIP: Print on US Letter or A4 and put it by the back door, where everyone in the household sees it before letting the puppy out. Choose "Save as PDF" in the print dialog for a PDF copy in Letter or A4, and laminate the schedule page if it will live near a door that gets muddy paws and rain. Print the daily log fresh each day for the first few weeks, or laminate one log and use a dry-erase marker, keeping a paper copy each week to review progress. A schedule on the door only works if every person follows the same routine, so agree the times together before you start.
