HOORVIA - ROAST COOKING TIME & TEMPERATURE CHART (BEEF, PORK & LAMB)

Quick Reference Cheat Sheet · US Letter Printable

Kitchen & Cooking

Beef Roast Cut & Weight	Oven Temp (°F / °C)	Minutes Per Pound	Pull Temp (Med-Rare)	Final Rested Temp
Prime Rib / Standing Rib Roast (4-8 lb)	450°F / 232°C (15m) -> 325°F / 163°C	15-18 min / lb	122°F-125°F / 50°C	135°F / 57°C (Rest 25m)
Prime Rib - Reverse Sear Method	250°F / 121°C -> 500°F / 260°C (10m)	30-35 min / lb	125°F / 52°C (Before 500°F / 260°C sear)	133°F-135°F / 57°C
Whole Beef Tenderloin / Chateaubriand (3-4 lb)	425°F / 220°C	12-15 min / lb (35-45m total)	123°F-125°F / 51°C	135°F / 57°C (Rest 15m)
Top Sirloin / Strip Loin Roast (3-5 lb)	350°F / 175°C	18-22 min / lb	125°F / 52°C	135°F / 57°C (Rest 15m)
Eye of Round / Top Round Roast (3-4 lb)	325°F / 165°C	20-23 min / lb	122°F-125°F / 50°C-52°C (Slice paper-thin!)	132°F-135°F / 56°C
Beef Chuck Pot Roast (Braised, 3-4 lb)	300°F / 150°C (Covered)	45-55 min / lb (3-3.5 hrs)	200°F-205°F / 93°C	205°F / 96°C (Fork-shred tender)
Beef Brisket Flat / Whole Packer (8-12 lb)	250°F / 120°C (Smoker/Oven)	60-75 min / lb	200°F-203°F / 95°C	203°F / 95°C (Rest 1-2 hrs wrapped)

PRO TIP: Traditional cookbooks start prime rib or leg of lamb at 450°F for 15 minutes and then drop the oven to 325°F. While effective, that method creates a thick ring of grey, well-done meat around a small pink bullseye in the center. Modern steakhouse kitchens use the Reverse Sear method for any roast over 3 pounds:
