Save / Save All	Ctrl+S / Ctrl+K S	Cmd+S / Cmd+Option+S

PRO TIP: Print on US Letter or A4 and tape it to the side of your monitor or keep it under your keyboard for the first month of learning shortcuts. Use "Save as PDF" in the print dialog for a PDF copy in Letter or A4. Because shortcut sheets get referenced dozens of times a day at first, a laminated copy or a copy inside a clear desk mat lasts longer than paper that slides off the desk. If you work on both Windows and Mac, highlight only your platform's column on the printed sheet so your eye does not have to filter the other column every time.
