| ___ : ___ | | [ ] | [ ] | |

**PRO TIP:** Print a stack on US Letter or A4 - one sheet per day in the early weeks - and keep the current sheet on the changing table or beside the feeding chair, with a pen attached. Use "Save as PDF" in the print dialog for a PDF copy, choosing Letter or A4 for your printer. A clipboard works well, because you will be filling this in one-handed at 3 a.m., and a loose sheet on a bed gets lost. If you prefer a reusable version, laminate one sheet and use a dry-erase marker, but keep paper copies for health-visitor or paediatrician visits, where a written record is easier to review.
