___ / ___ / ___	___ : ___	Before / After		
___ / ___ / ___	___ : ___	Before / After		

PRO TIP: Print on US Letter or A4 and keep the log with your meter, in a notebook, or on the fridge - wherever testing actually happens. In the print dialog, choose "Save as PDF" for a PDF copy and set Letter or A4 for your paper. Print a stack at once, because a log that runs out mid-week often means a week of readings is lost, and patterns are what matter most. A binder or folder for completed logs makes it easy to hand a clinician several weeks at once, instead of searching through loose sheets or phone photos.
