**PRO TIP:** Print on US Letter or A4 and keep it near the Instant Pot, ideally taped inside a pantry door or on the fridge. In the print dialog choose "Save as PDF" for a PDF copy and set the paper size to Letter (USA/Canada) or A4 (UK) - the layout fits both. Laminating is worth it here because rice cooking happens with wet hands and steam, and a laminated sheet survives splashes that would ruin plain paper. If you cook rice weekly, this one sheet replaces searching the same ratio on your phone every time.
