HOORVIA - SANDPAPER GRIT CHART: PRINTABLE PROGRESSION GUIDE

Quick Reference Cheat Sheet · US Letter Printable

Crafting & DIY · Sheet #1

Grit	Use	Removes	Next Step
40	Rough shaping, paint stripping	Deep scratches, old finish	Move to 60-80
60	Heavy stock removal	Saw marks, rough edges	Move to 80-100
80	First sanding pass	Mill marks, rough grain	Move to 100-120
100	Smoothing rough wood	80-grit scratches	Move to 120-150
120	General smoothing	100-grit scratches	Move to 150-180
150	Pre-finish sanding	120-grit scratches	Move to 180-220
180	Final sanding before stain	150-grit scratches	Move to 220 for topcoat
220	Between-coat sanding	Dust nibs, rough finish	Wipe, then next coat
320	Smoothing a finish	Light scuffs, orange peel	Wipe, then next coat
400	Fine finish sanding	320-grit marks	Move to 600 for polish
600	Polishing a finish	400-grit marks	Buff or wax
1000+	Mirror polish	Micro-scratches	Final buff with compound

PRO TIP: Never skip more than one grit: Jumping from 80 to 220 leaves 80-grit scratches that the fine paper cannot reach. Step through the grits in order and the finish comes out flawless.
