HOORVIA - REGEX SEARCH PATTERNS: PRINTABLE QUICK GUIDE

Quick Reference Cheat Sheet · US Letter Printable

Tech & Software · Sheet #1

Pattern	Matches	Example	Common Use
\d	Any digit (0-9)	\d{3}-\d{4} matches a phone number	Phone numbers, IDs
\w	Word character: letter, digit, _	\w+ matches a whole word	Words, usernames
\s	Whitespace: space, tab, newline	\s+ matches spaces between words	Spacing, line breaks
.	Any character except newline	a.c matches abc and aac	Wildcards, typos
^	Start of a line	^Hello matches lines starting with Hello	Line starts
$	End of a line	world$ matches lines ending with world	Line ends
*****	Zero or more of the previous	ab*c matches ac, abc, and abbc	Optional repeats
+	One or more of the previous	ab+c matches abc and abbc	Required repeats
?	Zero or one of the previous	colou?r matches color and colour	Optional characters
[a-z]	Any character in the range	[0-9]+ matches a number	Ranges, sets
(a|b)	Either a or b	(cat|dog) matches cat or dog	Alternatives
\b	Word boundary	\bcat\b matches cat, not cats	Whole words

PRO TIP: Escape special characters: A dot matches anything, so a literal dot needs a backslash: \. matches a real period. The same goes for *, +, ?, and parentheses.
