HOORVIA - HTML SEMANTIC ELEMENTS: PRINTABLE TAG GUIDE

Quick Reference Cheat Sheet · US Letter Printable

Tech & Software · Sheet #1

Element	Tag	Purpose	Example Use
header	<header>	Introductory content	Site banner, logo, nav
nav	<nav>	Navigation links	Main menu
main	<main>	Primary page content	The article or product
article	<article>	Self-contained content	Blog post, news story
section	<section>	Thematic grouping	Chapters, tabs
aside	<aside>	Tangential content	Sidebar, pull quotes
footer	<footer>	Closing content	Copyright, links
figure	<figure>	Media with a caption	Images, diagrams
figcaption	<figcaption>	Caption for a figure	Image description
time	<time>	Machine-readable dates	Publish dates
mark	<mark>	Highlighted text	Search highlights
address	<address>	Contact information	Author contact

PRO TIP: One main per page: A page has exactly one <main> - the primary content. Everything else is header, nav, aside, or footer. Two mains confuse screen readers.
