HOORVIA - CRICUT MAT COLORS CHART: PRINTABLE WHICH-MAT GUIDE

Quick Reference Cheat Sheet · US Letter Printable

Crafting & DIY · Sheet #1

Material	Mat Color	Grip Level	Why This Mat
Printer paper	Blue	LightGrip	Gentle adhesive holds light sheets without tearing them on removal
Vellum	Blue	LightGrip	Releases delicate translucent paper cleanly with no curling
Light cardstock	Blue	LightGrip	Enough hold for thin stock, easy peel for intricate cuts
Thin vinyl (removable)	Blue	LightGrip	Prevents thin vinyl stretching when you lift the cut
Medium cardstock	Green	StandardGrip	The everyday workhorse for the most common craft weight
Adhesive vinyl	Green	StandardGrip	Keeps vinyl flat through detailed cuts without bubbling
Iron-on / HTV	Green	StandardGrip	Holds heat-transfer vinyl steady for clean weeding lines
Patterned paper	Green	StandardGrip	Medium grip prevents printed sheets slipping during the cut
Heavy / glitter cardstock	Purple	StrongGrip	Extra tack stops thick, textured stock from shifting
Chipboard & balsa wood	Purple	StrongGrip	Maximum hold for materials that fight back against the blade
Faux leather & leather	Purple	StrongGrip	Grips heavy, slick materials through deep cuts
Cotton, denim, felt, silk	Pink	FabricGrip	Special fiber-gripping adhesive for rotary-blade fabric cuts

PRO TIP: When in Doubt, Go Green: The green StandardGrip mat handles the most materials, so start there for anything medium-weight - cardstock, vinyl, iron-on.
