HOORVIA - OIL CHANGE RECORDS CHART: PRINTABLE INTERVALS & MAINTENANCE LOG

Quick Reference Cheat Sheet · US Letter Printable

Home, Family & Health · Sheet #1

Oil / Task	Change Interval	Key Spec	What to Log
Full Synthetic Oil & Filter	7,500-10,000 mi or 12 months	API SP / ILSAC GF-6 (0W-20 or 5W-30)	Date, mileage, brand and grade
Synthetic Blend Oil & Filter	5,000-7,500 mi or 6 months	API SP	Date, mileage, shop or DIY
Conventional Oil & Filter	3,000-5,000 mi or 6 months	API SP	Date, mileage, next-due sticker
High-Mileage Oil (75k+ miles)	5,000-7,500 mi	Seal conditioners	Note any leaks or consumption
Severe-Duty Schedule	3,000-5,000 mi	Short trips, towing, dust, heat	Driving condition that trip
Diesel Engine Oil & Filter	5,000-7,500 mi	API CK-4	Ash content and regen notes
European-Spec Oil	Per owner's manual	ACEA A3/B4 or VW 502 00	Approval code on the bottle
First Oil Change (Break-In)	500-1,000 mi	Manufacturer guidance	Mileage and metal-shaving check
Oil Filter Replacement	Every oil change	OEM cartridge or spin-on spec	Part number used
Dipstick Level Check	Monthly	Amber-brown = healthy	Top-off amount added
Oil Life Monitor Reset	After each change	Follow dash procedure	Confirm 100% on the cluster
Used Oil Recycling	Each change	Sealed container, local program	Gallons dropped off, receipt

PRO TIP: Follow the manual first: Your owner's manual beats any generic interval - some engines spec 10,000-mile synthetic runs, others demand 5,000 regardless.
