CHEF'S PRO TIP: Why 'Minutes Per Pound' is only an estimate: A long, thin 4-pound pork tenderloin cooks in 22 minutes total, whereas a thick, round 4-pound pork loin roast takes 85 minutes—because heat travel time depends on radius (thickness from surface to core), not total weight!
USDA SAFE MINIMUM INTERNAL TEMPS: All Poultry: 165°F (74°C) • Ground Beef/Pork/Lamb: 160°F (71°C) • Whole Steaks, Roasts, Pork & Fish: 145°F (63°C)
