HOORVIA - GOOGLE SLIDES SHORTCUTS: PRINTABLE CHEAT SHEET

Quick Reference Cheat Sheet · A4 Printable

Tech & Software · Sheet #1

Shortcut / Command	Action	Where	Note
Ctrl+Alt+Shift+H	Version history	File menu	Shows every saved version
Ctrl+Z	Undo	Everywhere	One step back
Ctrl+Shift+Z	Redo	Everywhere	Re-does the undo
Ctrl+M	New slide	Slides	Adds a slide after the current one
Ctrl+D	Duplicate	Slides	Duplicates the selected object/slide
Ctrl+Shift+V	Paste without formatting	Slides	Matches the slide's style
Ctrl+A	Select all	Slides	Selects everything on the slide
Ctrl+G	Group objects	Slides	Groups the selection
Ctrl+Shift+G	Ungroup	Slides	Ungroups the selection
Ctrl+Alt+M	Add comment	Slides	Leaves a note for collaborators
Ctrl+F5	Present	Slides	Starts the slideshow
Esc	Exit presentation	Slideshow	Returns to editing

PRO TIP: Version history is the real undo: Slides saves every change automatically. File > Version history shows who changed what and lets you restore any earlier version - the undo button for the whole deck.
