HOORVIA - MEAT RESTING TIME CHART: PRINTABLE REST GUIDE FOR EVERY CUT

Quick Reference Cheat Sheet · A4 Printable

Kitchen & Cooking · Sheet #1

Meat	Size / Thickness	Rest Time	Why It Matters
Steak (1-inch)	8-12 oz	5-7 mins	Juices redistribute; +3-5°F / -16°C--15°C carryover
Thick Steak (1.5-2 in)	12-20 oz	10-12 mins	Center coasts gently to target temp
Whole Roast Chicken	4-5 lbs	15-20 mins	Skin stays crisp, meat stays juicy
Whole Turkey	12-20 lbs	30-45 mins	Essential - carving early means dry meat
Prime Rib	4-6 lbs	20-30 mins	Large mass holds heat; slice it warm
Pork Loin Roast	3-5 lbs	10-15 mins	Lean meat dries fast without a rest
Pork Chops	6-8 oz each	5 mins	Small carryover, big juiciness gain
Brisket	10-16 lbs	1-2 hrs (in cooler)	Collagen sets; slices cleanly
Pork Shoulder	5-8 lbs	30-45 mins	Pulls cleanly and retains moisture
Fish Fillet	6-8 oz	3-5 mins	Delicate flesh needs only a short rest
Burgers	1/4-1/3 lb patties	3-5 mins	Cheese melts, juices settle
Lamb Chops	4-6 oz each	5 mins	Tent loosely and serve warm

PRO TIP: Tent, Don't Wrap: Rest meat tented loosely with foil, never wrapped tight. Tight wrapping traps steam and softens the crust you worked to build.
